

Traumatic Brain Injury Data Collection

Illinois Profile

Data Collection Information

Injury Core Capacity Development

Illinois is one of 28 states receiving CDC funding to conduct injury surveillance as part of an overall plan for injury control. The general injury data collected for the Core Capacity program examine causes of injury rather than the nature of the injury itself.

Program Spotlight

Illinois Traumatic Brain Injury (TBI) Case Management Program

The McHenry County Traumatic Brain Injury Case Management Program in Illinois is funded through local taxes. Intake occurs through the mental health system, and individuals with TBI are provided with intake screening, an individualized plan, linkage to services, free case management, and other services that are provided at a reduced rate.
